

# Screening to Care

## East San Diego

School-Based behavioral health program in partnership with Santee School District focused on providing prevention and intervention services to students through Multi-Tiered Systems of Support (MTSS).

## About Us

This new and innovative school-based program provides comprehensive screening, small group interventions, and linkage to services to maximize students social and emotional learning through coordinated services in school and in the community. Screening to Care is designed to help students improve their mental and emotional health, improve overall wellbeing, increase positive school outcomes, and improve social and family relationships.

## Eligibility

Students in grades 6-8th enrolled in one of the partnership schools in Santee School District.

## Partnering Middle Schools

- Cajon Park School
- Carlton Hills School
- Carlton Oaks School
